

This is a headline

This is a deck

This is normal text set in 14/21 Times Roman. It includes *emphasized terms*, set in Times-Italic. The TeX hyphenation algorithm is implemented. The term {person, "Joe"} is an Erlang term.

This is a subhead

The variable X, was immediately followed by a comma. The justification algorithm does proper *Kerning*, which is more than *Microsoft Word* can do. *AWAY* is correctly kerned! Erlang terms {like, this} are typeset in *courier*.
